The screenshot shows the RSC login page with the browser address bar at rsc.org. The navigation menu includes Home, Publishing, ChemSpider, Education, Community, News, and More... with a search bar. The main content area is titled 'Log in via your home institution (Shibboleth)'. A dropdown menu is open, listing various institution groups: Australian Access Federation, Austria (ACOnet Identity Federation), Brazil (CAFe), Canadian Access Federation (CANARIE), China CERNET Federation (highlighted with a red circle), Czech Republic (eduID.cz), and Edugate (Ireland). Below the dropdown is a text box with instructions: '(If you previously used the Athens service to log in, please select "OpenAthens Federation" from the dropdown menu)'. To the right, there are two bullet points: 'Your username and password have been provided to you by your librarian.' and 'If you would like to log in using another method than Shibboleth, please return to the previous page, and select one of our other login options'. The footer contains copyright information for the Royal Society of Chemistry 2020 and links for About us, Terms of use, Help, Working for us, Privacy & cookies, Contact, Press office, and Accessibility.

The screenshot shows the RSC website's login interface for institutions. At the top, there is a navigation bar with links for Home, Publishing, ChemSpider, Education, Community, News, and More..., along with a search bar. The main content area is titled "Log in via your home Institution" and includes instructions to log in using home institution credentials. A dropdown menu is set to "China CERNET Federation". Below this, there is a list of institutions under the heading "China CERNET Federation", with "Shaanxi Normal University" highlighted in red. To the right, there is a section for "Log in via your home institution (Shibboleth)" with two bullet points explaining the login process.

3、到陕西师范大学统一身份认证页面输入用户名、密码

About our publications

The Royal Society of Chemistry publishes 45 peer-reviewed journals, around 2,000 book titles and a collection of online databases and literature updating services.

Our international publishing portfolio covers the core chemical sciences including related fields such as biology, biophysics, energy and environment, engineering, materials, medicine and physics. As a not-for-profit publisher, we reinvest surplus funds back into the global scientific community, supporting our mission to advance excellence in the chemical sciences.
